PROFESSIONAL SUMMARY

I'm a full-stack developer with strong background in front-end as well as back-end technologies. I have delivered multiple industrial projects that need creative solutions. Skilled in designing and implementing scalable, secure, and efficient web applications. I like helping companies grow by coming up with smart ways to improve their software. I've achieved success in previous projects, and I'm passionate about continuing to learn and make a positive impact in the field of software development.

SKILLS

- Front-end: **AngularJS, ReactJS, HTML, CSS, Bootstrap**
- Back-end: **NodeJS, ExpressJS, Redux**
- Database: **MySQL, PostgreSQL**
- Languages: **Javascript, Typescript, Python, Java**
- Cloud: **AWS**

PROFESSIONAL EXPERIENCE

July 2022 - Present

Tata Consultancy Services Developer

- Developed the "Suyo" demand management application using **Angular**, ensuring a seamless user experience for various user roles including managers and administrators which saved **750 labour** hours per year and reduced the approval time from **2 days to 1 day** on average.
- Collaborated closely with the backend team to integrate frontend components with the **Spring Boot** backend, enabling smooth data flow and real-time updates throughout the application.
- Designed and implemented responsive UI components utilising **Bootstrap**, ensuring optimal user experience across different devices and screen sizes.
- Led the creation of interactive pages and UI flows for demand creation and approval processes, enhancing user engagement and efficiency thereby increasing the user satisfaction by **70% to 90%** and reduced the **manual errors** by **90%**.
- Resolved complex challenges and optimized solutions for critical functionalities, ensuring high performance and scalability of the application.
- Contributed to the continuous improvement of development processes, including **code reviews**, **testing**, and documentation, to maintain high standards of quality and efficiency in project delivery.

EDUCATION

B.E. Computer Engineering · 9.43 CGPA
Sanjivani College of Engineering, Kopergaon
06/2022

Secondary School · 72.92 %
R.B.N.B College, Shrirampur
05/2018

Primary School · 92 %
St. Xavier's High School, Shrirampur
06/2016

CERTIFICATIONS

- SQL for data science
- Machine learning with AI using python, Quantum Learning.
- Python for data science and machine learning bootcamp, udemy.

INTERPERSONAL SKILLS

- Good communication
- Team working skill
- Flexible
